► CONTEXT and CHALLENGES

Fighting hunger is still a critical challenge at world level, with a growing concern about malnutrition, and is addressing the Sustainable Development Goals (SDGs).

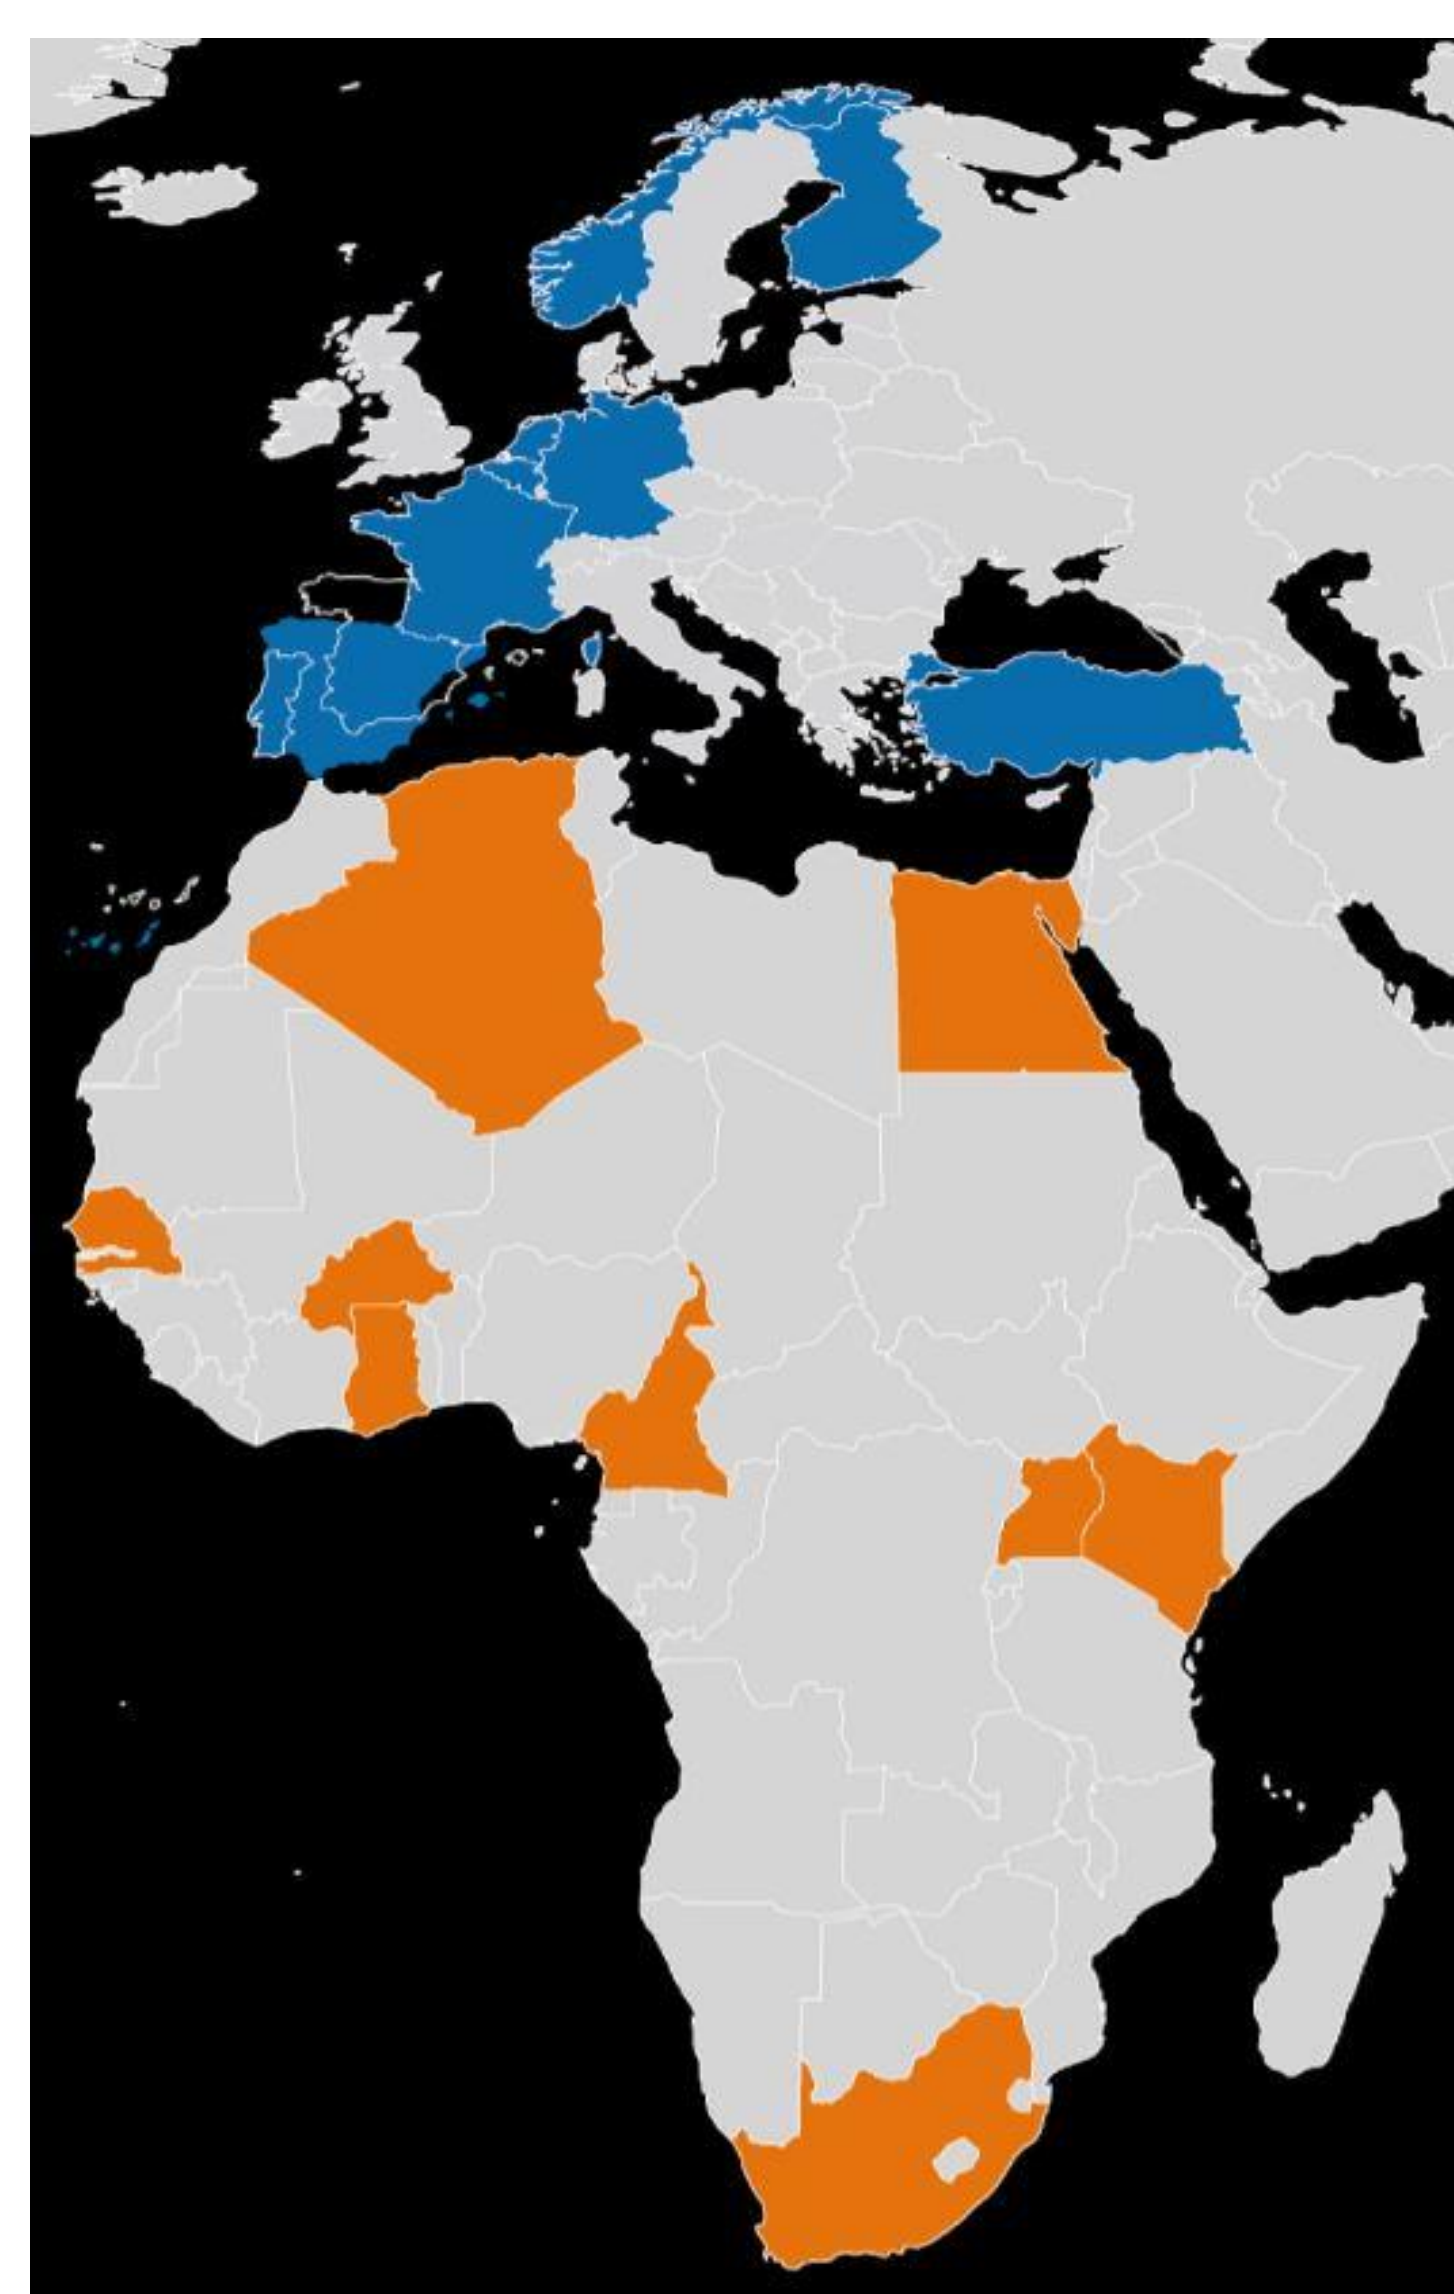

Global changes, including demographic dynamics, creates need for both Africa and Europe to develop joint and relevant solutions to address food and nutrition security and sustainable agriculture (FNSSA).

► THE LEAP-Agri PROJECT

LEAP-Agri is an ERANet Co-fund project supporting the EU-AU partnership on science, technology and innovation on FNSSA with two pillars :

- Funding Joint Europe- Africa R&I collaborative projects dedicated to FNSSA;
- Feeding the Europe - Africa long term partnership in R&I on FNSSA.

Consortium involves 30 partners from **18** countries, including **24** African and European Funding Agencies and Ministries. Total budget is **28** million € including financial support of the EC H2020 Programme.

Africa : Algeria, Burkina Faso, Cameroun, Egypt, Ghana, Kenya, Senegal, South Africa, and Uganda;

Europe and associated partners : Belgium, Finland, France, Germany, Norway, The Netherlands, Portugal, Spain, and Turkey

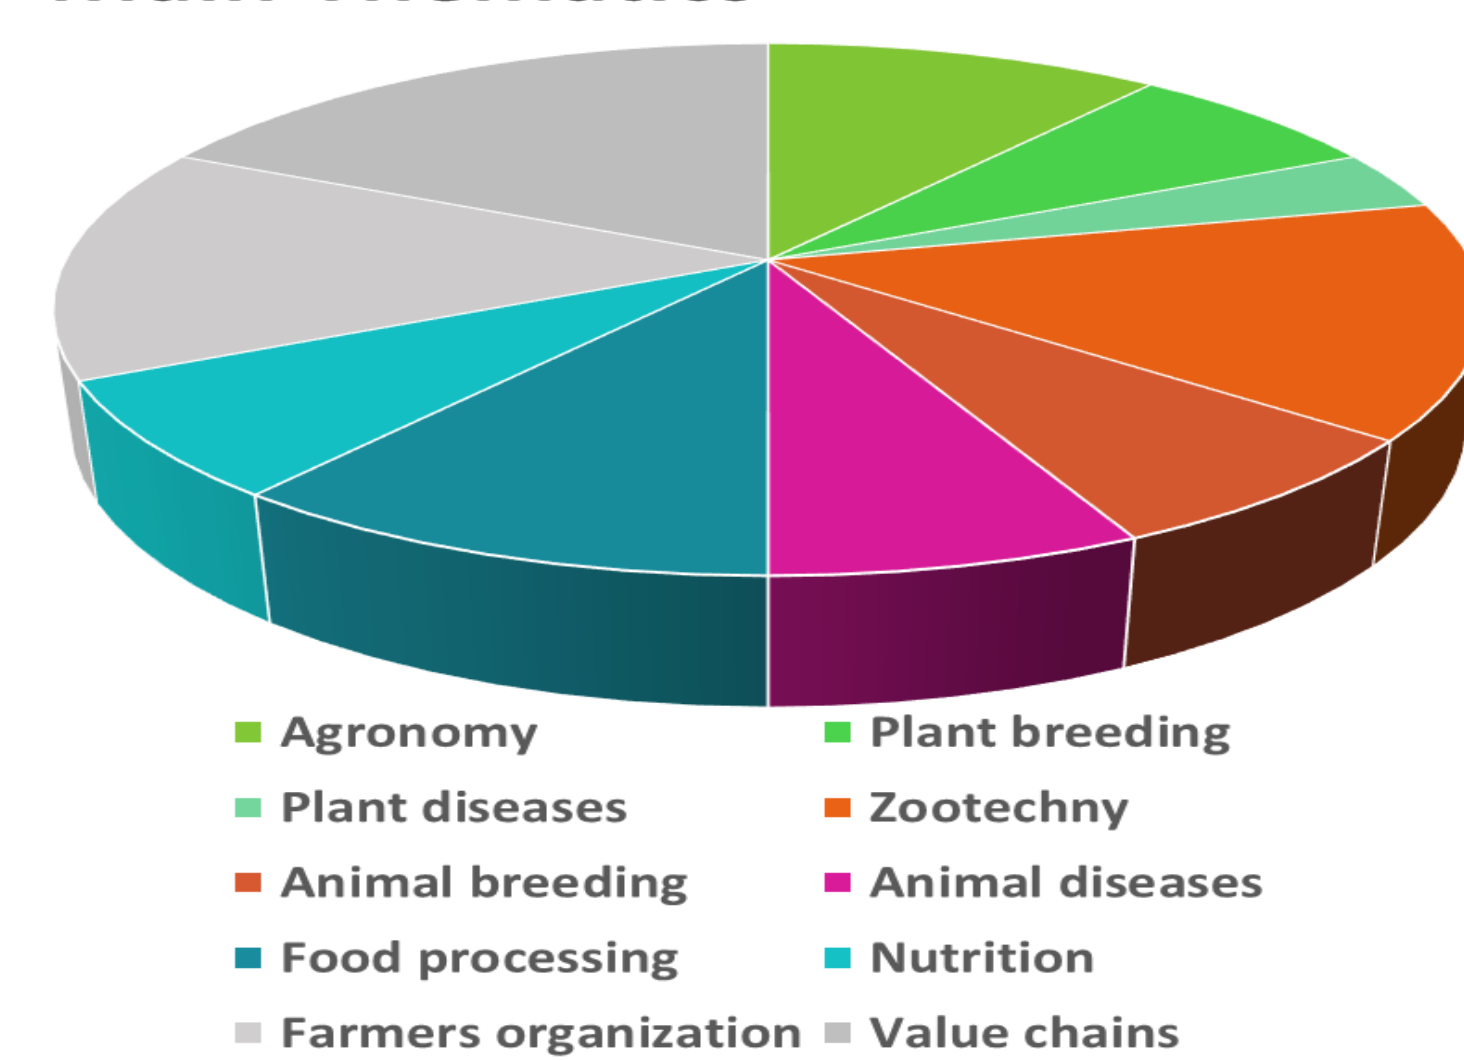

International : CIHEAM, Italy

► PROJECT IMPLEMENTATION

Project started in December 2016 for a 5 years duration. 27 R&I Africa-Europe projects involving 160 research teams were selected for cofunding on topics :

- Sustainable agricultural intensification
- Agriculture and food systems for nutrition
- Improvement of agricultural markets and trade

Main Thematics

African countries participation

European countries participation

► PERSPECTIVES and EXPECTATION

Each 27 R&I projects has developed impact pathway approaches to deliver solution driven results. Projects mid term monitoring confirms dedicated involvement of AU and EU teams and on going implementation, with preliminary interesting outputs, nevertheless the Covid pandemic and funding constraints.

LEAP-Agri foreshadows future Africa and Europe funding and research Alliance and develops proposals to sustain long term EU-AU R&I partnership for food and nutrition security and sustainable agriculture.

Political support and Funders commitment is critical to support these dynamics.
